

Nuria Muñiz – Monthly – Sept –Oct**MICHIGAN****McLouth Steel- Gibraltar:****Ex. 5 - Deliberative Process (nonresponsive deliberative material)****Wolverine:**

September - CCRR requested DEQ to provide a copy of the OCA report. After a year of reminding DEQ about their OCA report – DEQ finally submitted the report. CCRR continues to be dissatisfied with DEQ's response at the site. However, the site is still under state authority and there is progress towards cleanup. Because of CCRR's concern I proposed to my managers that perhaps DEQ (not EPA) can petition Michigan's Dept. of Health (ATSDR counterpart) for a public health assessment. Perhaps this would alleviate some of the community group's concerns.
